Our niche is "the big little screen". While some displays are physically larger, our systems use the newest technology and deliver better looking displays at substantial cost savings. Premier manufacturer's systems provide a better product from years of acquired experience in LED and trailer leadership. Introducing the new and improved display design for the 16:9 HD format - for rental, purchase, lease or retrofit.

16:9 Aspect Ratio

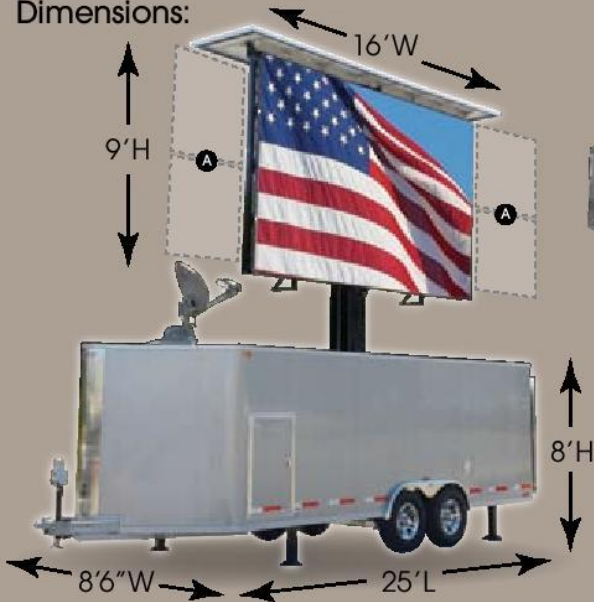

Our new mobile LED display provides 16:9 HD format that extends 20' or more in the air for maximum viewing. The improved trailer is self-contained and offers 360 degree rotation for day and night-time events. This advanced design is adaptable to all OEM tiles from premium LED manufacturers.
